

Spring Temps and Dress Code

(Posted: March 7, 2024)

Hopefully we have seen the last of the really cold weather. One of the realities of this really old building is the big swing in temperatures from room to room and floor to floor. Because it is very cold in parts of the building, we have been somewhat lenient about hats and hoods. With the warmer temperatures returning, we again need to stress that students should not be wearing hats and hoods in the building during the school day. Below is the BOE policy.

Hats, hoodwear, and hoodies (the hood part covering the head) are not permitted to be worn in schools or throughout the school day. A sweatshirt with a hood down is a permissible item for students to wear. *Religious or cultural adornment headcovering is permitted. Headcovering associated with 504, Medical Plan, or IEP is permitted.*
